

Kaustav Bhattacharya

Front-End Developer

Front-End Developer with 1.5 years of expertise in JavaScript, TypeScript, React, Redux, Jest, and Cypress. Certified in ReactJs and Full Stack Web Development, I specialize in UI design, evident in projects like a responsive admin dashboard UI and a feature-rich to-do list app. Excited to contribute to innovative projects and dynamic teams.

PERSONAL PROJECTS

ADMIN DASHBOARD UI | Link [🔗](#)

- A responsive admin dashboard using **React**, **TypeScript**, and **Sass**.
- Seamlessly integrated user interface elements to create an intuitive and efficient platform.
- This project showcases my expertise in UI design and TypeScript coding, demonstrating my ability to deliver a functional and visually appealing admin tool.

BUDGET TRACKER WEB APPLICATION | Link [🔗](#)

- Developed an intuitive and efficient budget tracking web application using **React**, **TypeScript**, and **React-Router-Dom**.
- Created a responsive admin dashboard that seamlessly adapts to various screen sizes for an optimal user experience.
- Seamlessly integrated user interface elements, delivering a visually appealing and highly functional platform.
- This project serves as a demonstration of my proficiency in UI design and TypeScript development, highlighting my capability to deliver a visually appealing and functional admin tool.

TO-DO LIST | Link [🔗](#)

- This feature-rich to-do list platform using **HTML**, **CSS**, **JavaScript**.
- This Platform empowers users to effortlessly create and manage multiple lists.
- With its captivating and responsive user interface, stay organized and prioritize tasks with unprecedented ease.
